

About Europe Welcome League

Europe Welcome League, Small Welcome Actions is a call to welcome refugee people arriving at our villages and towns.

We have selected ten welcome actions. These are simple everyday actions we perform when we first meet someone, or when we want to know them better. We have divided these actions into three types: actions to learn about the situation of refugee people, actions everyone can do as an individual and actions that people can organise in their neighbourhoods and communities.

Every action, small and simple, counts to build a world of encounters where we can collectively build new ways of living together based on respecting diversity, equality and solidarity.

Why these actions?

We are a group of young people, of mostly gypsy origin, coming from multiple countries in Europe (Albania, Austria, Czech Republic, Hungary, Italy, Romania, Serbia and Poland). We are currently in Badalona participating in a culture and sports interchange. Many of us have lived through discrimination and inequality because of cultural, economic and religious reasons, or because of our gender. Migration and displacement are close to us, in terms of our current situation and in the history of our people.

For these reasons we want to show solidarity with people seeking asylum in our countries. In sport we learn about values like sportsmanship, respect and team work. These are the values we want to bring to Plaça Sant Jaume.

Every small welcome action is a great action towards living together which helps us bring down the borders that stand between peoples and cities.

What about you?

What will be your small welcome action? If you would like to participate, send us your small welcome action to: petitesaccionsbenvinguda@gmail.com All small welcome action will be published at www.relacional.org
